Web Announcement 2533

Attention All Behavioral Health Providers: Information about the LOCUS and CALOCUS Assessment Tools

The Division of Health Care Financing and Policy (DHCFP) has been informed that Deerfield Solutions will be making changes to their provision of the Level of Care Utilization System (LOCUS) and Child and Adolescent Level of Care Utilization System (CALOCUS). The tools and training in the use of these tools will now be provided online at a cost to the provider. A new CALOCUS & Child and Adolescent Service Intensity Instrument (CALOCUS/CASII) is being developed by the American Association of Community Psychiatrists (AACP); this tool will also be available online sometime in 2021. A new application interface is being developed in order to assist providers' electronic health record (EHR) systems to integrate with the most up-to-date documentation tools.

For further information on the LOCUS or CALOCUS/CASII, providers may consult the Deerfield Behavioral Health Network website at: <http://www.dbhn.com/index.cfm>.

Providers who have questions related to the screening and assessment of individuals for mental health and substance use disorder services may contact the DHCFP Behavioral Health Unit (BHU) inbox at:
